Service Gazette.

We have dates from Sydney to July 22d. The aners contain no news of importance. Sir Charles Hotham, Governor of Victoria, had died. New old discoveries had been made in the Province of otoria. The Empire thus speaks of them :

The gold obtained at Rocky River is of a very fine description, being nearly equal to that found at Bendigo. It is obtained at from seventy to one bundred feet below the surface, amongst a lead olored sand. The samples that have been brought lown have been very carelessly washed; so much that there was, on assaying, a depreciation of about five shillings per pound. If clean-washed. however, it would prove the richest gold yet disovered in the colony. On Monday se'nnight two housand people were at work at Rocky River, hree hundred were on the road leading from Murrarundi, and large numbers were proceeding from the Clarence and other districts. A party of five had obtained as much as one hundred ounces in a week. On Saturday fortnight one thousand ounces could have been purchased on the ground by a centleman who was casually visiting the diggings. These facts were stated to us yesterday by a genleman of respectability.

DISCOVERY OF SILVER AND COPPER ORE IN TAS-MANIA.-A discovery of silver and copper ore is thus given in the Mercury of the 7th:

On Saturday, two Welsh miners, named Lloyd and Thomas, arrived in Hobart Town with some silver and copper, obtained by them in the Bothwell district, by smelting in an old blacking jar. The amount of copper obtained is a quarter of an ounce, and the silver an ounce and a half. The metals, we are informed, are found on Crown land. and the discoverers are to be adequately compensated, should the discovery prove profitable.
